Grow Your Business

Intentional Mastermind and Coaching (MAC) Forums give you specific business principles and actionable skill-sets to lead and manage your business to any level you see and desire. In other mastermind-type programs you talk about specific problems and get suggestions on how to solve them. In the MAC Forums you will learn, develop and be coached on a *'system of Intentional thinking and action'* which will not only help you solve a particular situation you might be facing now, but you will develop a method of *'Intentional thinking and doing'* which will allow you to address any problem or situation with more predictable and positive results. You will also be able to teach and train others in your organization the same methodologies so your business is team- and systems-based, not solely dependent on you for its success. You, and therefore your whole team, will develop the necessary attitudes, knowledge, skills and habits which will ensure intentional, measurable, sustainable growth. Guaranteed.

Grow Yourself

Intentional Mastermind and Coaching (MAC) Forums are based on and utilize The Intentional Success System™. It is a system of nine (9) interrelated, interconnected, interacting, and interdependent universal life-principles. Applying this system helps individuals increase self-esteem, identify purpose and values, and learn coping skills and tools to deal with life's everyday challenges. Examples might include maintaining healthy relationships, setting and achieving personal goals, improve communications skills, enhancing personal time management and more. Every decision you make affects all three (3) major aspects of your life: **Organizational** [Your business]; **Professional** [You as the leader of your business]; and **Personal** [Your life outside your business]. Shouldn't every one of these decisions be as Intentional as possible?

Here's How

Each two and one-half (2-1/2) hour Intentional Mastermind and Coaching (MAC) Forum session is sub-divided into three (3) sections: 1) **Philosophy**-the introduction and discussion around a foundational [life/business] principle; 2) **Strategy**-the Masterminding and coaching of how to **Accept, Adopt and Adapt** that principle in your life and business; and 3) **Community**-the commitment to and accountability by the group to ensure intentional, habitual, sustainable, and measurable implementation and success. You will also set a quarterly goal. At the end of each quarter you will report on 1) what you learned; 2) how you have implemented it and the progress made; and 3) the specific, measurable results you have achieved. Also, the MAC Forum participants will be sub-divided into teams. Each team will work on a project of the team's choosing to benefit the community in which they live and work. Each team will present and implement their project at the end of their forums.

Intentional Companies

A family of organizations dedicated to making a positive difference in the world through Intentionality.
